Subject: Trust animal welfare

Importance: High

Good morning Graham.

I feel conscious that I may be pressuring you for which I apologise.

There is a very real need to establish the Animal Welfare Trust so that preparation for MAF auditing and subsequent audit and acceptance of the TRUST/WCC link is achieved in a timely fashion. The alternative is for Animal Welfare Services to lose all the warrants and this will set us back considerably.

The Animal Welfare Bill is scheduled for enactment in October and all systems need to be in place well before then. It will take several months to put things in place so things are at a critical point now.

Are you in a position to be able to complete the fine tuning "tweaking" of the Trust document so that establishment can proceed and so that preparation for October is made possible? I understand that Neil Wells has supplied a draft to fine tune.

Can you please advise on where things are at as things are beginning to get desperate at this end.

regards tom d
